Once a proposed BR Plan is adopted, there will be no opportunity to submit, re-submit and/or recalculate a claim. Creditors are also requested to distinguish which part of the claims constitute pre - business rescue debt, post business rescue debt, post commencement finance and / or future debt & damages. It must be noted that the proof of claim submitted to the BR Practitioner does not automatically assure the creditor that this will be the amount considered in the proposed business rescue plan, or in the event that the amount is contained in the plan,

that this amount would be considered during disbursements, as discrepancies might be found when comparing the amount presented to debt contained in the financials of the business. The amounts due will be scrutinised after the adoption of the proposed plan in order for the business and the practitioner to not incur costs unnecessarily. The amounts contained in the proposed business rescue plan will be considered the actual amount and it is the responsibility of each creditor to confirm this amount prior to the vote taking place.
